RE: New information regarding electric rates for your solar photovoltaic (PV) system

Dear Water and Power Customer:

As a valued Pasadena Water and Power (PWP) solar PV system owner, you will soon be eligible to receive compensation for any net surplus electricity generated by your PV system. *Net surplus electricity* is defined as all electricity generated by an eligible customer-generator (solar PV or wind) over a 12-month period that exceeds the amount of electricity consumed during that same period.

In accordance with State Assembly Bill 920 (2009), ***you must complete and mail or fax the attached election form ("Net Surplus Electricity Compensation Request Form") to PWP*** in order to receive future compensation for your net surplus electricity. There is no deadline to submit this form; however, the 12-month period for accruing net surplus electricity will not begin until PWP receives notice of your election. ***You will not receive any compensation for net surplus electricity generated prior to PWP's receipt of your election form.***

Please note that your election to receive compensation will bear no impact on the compensation rate, which is currently under review by PWP. The City Council will conduct a public hearing this year to consider PWP's recommendations, hear public comment, and set the compensation rate and terms. A Notice of Public Hearing will be published 14 days before the hearing date. PWP encourages you to attend or submit comments online at [www.cityofpasadena.net](http://www.cityofpasadena.net).

You will be notified by mail after the compensation rate is approved by City Council. Please provide your e-mail address on the election form if you wish to be contacted with information on this matter and other PWP program information. If you have any questions, please refer to our solar web pages at [www.PWPWeb.com/solar](http://www.PWPWeb.com/solar) or call the AnswerLine at (626) 744-6970.

Sincerely,

Mauricio Mejia  
Pasadena Solar Initiative Program Administrator

## Net Surplus Electricity Compensation Request Form

In accordance with State Assembly Bill 920, Pasadena Water and Power (PWP) customers may elect to receive compensation for net surplus electricity generated by their eligible solar PV or wind generation system. Net surplus electricity is the amount of electricity generated over a 12-month period that exceeds the amount of electricity consumed during that same period. This form must be completed to receive compensation for net surplus electricity.

<i>PWP Electric Account:</i>	██████████
<i>Name on PWP Electric Account:</i>	████████████████████
<i>Utility Meter Number:</i>	██████████
<i>Physical Address of Solar System:</i>	████████████████████
<i>City, State</i>	Pasadena, CA
<i>Home Phone Number:</i>	
<i>Alternate Phone Number:</i>	
<i>Email Address (optional):</i>	

The undersigned PWP customer declares that information in box above is correct and makes the following selection by checking the appropriate box below:

- Option A: I hereby elect to receive compensation for net surplus electricity at a compensation rate and terms to be determined by Pasadena City Council at a future date.** The 12-month period for calculating the net surplus electricity eligible for compensation will commence upon PWP's receipt of this election. By electing to receive compensation for surplus electricity, I understand that PWP will take ownership and title to the net surplus energy produced by my solar PV system as well as associated environmental attributes for its renewable portfolio standard compliance reporting.
- Option B: I prefer not to receive compensation for net surplus electricity.** I may change my election at a future date, but any net surplus electricity produced by my solar PV will not be eligible for compensation until I make such an election.
