

Net Surplus Electricity Compensation Request Form

In accordance with State Assembly Bill 920, Pasadena Water and Power (PWP) customers may elect to receive compensation for net surplus electricity generated by their eligible solar PV or wind generation system. Net surplus electricity is the amount of electricity generated over a 12-month period that exceeds the amount of electricity consumed during that same period. This form must be completed to receive compensation for net surplus electricity.

<i>PWP Electric Account:</i>	
<i>Name on PWP Electric Account:</i>	
<i>Utility Meter Number:</i>	
<i>Physical Address of Solar System:</i>	
<i>City, State</i>	Pasadena, CA
<i>Home Phone Number:</i>	
<i>Alternate Phone Number:</i>	
<i>Email Address (optional):</i>	

The undersigned PWP customer declares that information in box above is correct and makes the following selection by checking the appropriate box below:

Option A: I hereby elect to receive compensation for net surplus electricity at a compensation rate and terms to be determined by Pasadena City Council at a future date. The 12-month period for calculating the net surplus electricity eligible for compensation will commence upon PWP's receipt of this election. By electing to receive compensation for surplus electricity, I understand that PWP will take ownership and title to the net surplus energy produced by my solar PV system as well as associated environmental attributes for its renewable portfolio standard compliance reporting.

Option B: I prefer not to receive compensation for net surplus electricity. I may change my election at a future date, but any net surplus electricity produced by my solar PV will not be eligible for compensation until I make such an election.
